LINE ROAD TO START OCT. 15

GOV. HUNT INFORMS THE CHAMBER OF COMMERCE THAT CONSTRUCTION OF PRESCOTT-JEROME HIGH-WAY WILL BEGIN SOON.

(From Thursday's Daily.)

That the short line road from Jeome to Prescott will be built is aparently a settled fact. The Journal-Miner yesterday printed an exact copy of an article appearing in the Verde Copper News, which stated that the road would not be constructd, according to the statement made by Engineer Atwood to two contractes from Jerome. Following the interiew of these contractors with Presilent Viele of the Chamber of Commerce, after their return from the capitol, Mr. Viele immeditely wrote Sovernor Hunt and requested that he rive definite settlement to this mooted question once for all. The folowing letter from Governor Hunt, lated October 8th, gives the emphatic statement that unless dirt is Tying on the Jerome-Prescott road by the 15th of this month, there will e some action taken by the gover-

"My dear Mr. Viele: I have your etter of October 4th, concerning the nterview the two Ierome contractors had with Mr. Atwood, and in rely thereto will say that instructions ave been given State engineer to tart the contstruction of the Ierome-Prescott highway on the 15th of this nonth. The action, I think, will renove all doubt from the minds of the coole of your county that it is our rish and intention to build this road. "As you are aware, the agreement

o build this road was reached prior o the convening of the special sesion of the legislature, and the mater was not included in the call, for wanted to center all the legislation n war measures for the relief of oldiers. Nevertheless I feel that the greement is just as binding upon us s if the legislature had passed a nandatory law calling for the contruction of the road.

"I feel now that there will be no orther delay, but if the road is not tarted on the 15th of October, I hope on will be kind enough to wire me o that effect. My word has been iven that the road will be started on bat day, and I intend to make it With kind regards, I am, Sinerely yours.

"George W. P. Hunt, Governor of Arizona.

State Engineer Here. State Engineer P. M. Atwood acrank Goodman and General Forenan J. D. I ee arrived in Prescott ast evening from Williams where tate road work has been going on. The State engineer has given orders o Mr. Goodman to immediately proeed with the moving of state edinnent from Williams and other points a this county so that work on the hort line may commence at once, Within a week or sooner the equinnent should arrive and then the hould begin to fly on the long-chershed highway of the two cities. The parties will leave this morning for a rip over the line and select camn ites. The equipment will be unloadd at Yacger Canyon siding. It will onsist of at least seven cars.

DIVIDEND OF 11 PER CENT PAID IN YEAR 1918

(From Friday's Daily.) United Verde Extension stockholdrs of record October 3, will receive he quarterly dividend of 75 cents a

hare on November 1. An extra of \$1.25 brings the total disbursements or 1918 to \$4.25, indicating a yield of 11.5 per cent on a purchase price of 338. Since dividends were inaugurated in August, 1916, a total of \$7.60 a share or over \$7,500,000, equivalent o more than ten times the capitalizaion, has been paid.

According to an engineer's report, based on personal investigation, it vill require from four to six months or the company to complete the 12,-00 foot drainage and haulage tunnel now under construction. The tunnel will accomodate a standard guage car and will eliminate hoisting of ore 100 feet and pumping water. In addition, the ore will go direct to the ompany's new smelter, as compared with the present round-about method ising aerial tramway and involving onsiderable rehandling. There will e a great saving in costs which will amount to at least five cents a pound n total. Since August 1, the new melter has run uninterruptedly and should by now, be turning out about 4,500,000 lbs. copper per month from lifteen per cent ore.

Verde Extension now probably has about 2,000,000 tons of ten per cent werage copper tenor containing about \$100,000,000 gross values. When the new smelter is completed, 1,000 tons will be treated daily with an annual net profit of over \$10,000,000 Peace McLane. Dunn is a typical or nearly \$10 a share . The figures in a year. Many will recall the spectacular advance from under \$6 to around \$45 in the fall of 1916. Aside from this speculative possibil-

dend payer of established standing. Try a Journal-Miner want ad.
